

# Sean Quigley

## Professional summary

Computer Science graduate with a strong foundation in software development and a proven track record in leadership and operational management from over eight years in retail. Demonstrated ability to navigate high-pressure environments and deliver solutions. Passionate about applying technology to drive societal and public service improvements, with a keen mind for abstract architectural thinking. Continually experiment and stay up to date with emerging advancements in AI, including IDE API/Local workflows and MCP servers.

## Work history

### Barclays – Smart Investor Customer Agent

06/2024 - 06/2024

- Spent one month training on site responding to customer queries within the Smart Investor department. Unfortunately, the temporary summer project was cancelled due to a conflict of interest that appeared from the announcement of the UK general election (government bonds trading). Nonetheless, it was a good experience absorbing the office environment with a global bank.

### Iceland Foods - Duty manager

10/2014 - 12/2022

- Managed teams of up to 8 individuals in a variety of different small-medium supermarkets. Skilled in handling challenging public-facing situations promptly and acting as a facilitator towards colleagues and senior management.
- Managed store availability, drove sales, and prioritised customer service.
- Ensured efficient daily operations through consistent team communication and implementing store policies.
- Optimised warehouse organisation and stock management using deductive reasoning and predictive analysis.
- Awarded outstanding commitment to the business certificate for working 14 consecutive days during a challenging pandemic period.
